Preface

This volume contains papers presented at the Fifth Workshop on Software Quality Analysis, Monitoring, Improvement, and Applications (SQAMIA 2016). SQAMIA 2016 was held during August 29 – 31, 2016., at the Faculty of Informatics of Eötvös Loránd University, Budapest, Hungary.

SQAMIA 2016 continued the tradition of successful SQAMIA workshops previously held in Novi Sad, Serbia (in 2012 and 2013), Lovran, Croatia (2014), and Maribor, Slovenia (2015). The first SQAMIA workshop was organized within the 5th Balkan Conference in Informatics (BCI 2012). In 2013, SQAMIA became a standalone event intended to be an annual gathering of researchers and practitioners in the field of software quality.

The main objective of the SQAMIA series of workshops is to provide a forum for presentation, discussion and dissemination of the latest scientific achievements in the area of software quality, and to promote and improve interaction and collaboration among scientists and young researchers from the region and beyond. The workshop especially welcomes position papers, papers describing work in progress, tool demonstration papers, technical reports, and papers designed to provoke debate on present knowledge, open questions, and future research trends in software quality.

The SQAMIA 2016 workshop consisted of regular sessions with technical contributions reviewed and selected by an international program committee, as well as of one invited talk by Prof. Kevin Hammond. In total 12 papers were accepted and published in this proceedings volume. All published papers were triple reviewed. We would like to gratefully thank all PC members for submitting careful and timely opinions on the papers.

Our special thanks are also addressed to the steering committee members: Tihana Galinac Grbac (Croatia), Marjan Heričko (Slovenia), and Hannu Jaakkola (Finland), for helping to greatly improve the quality of the workshop. We extend special thanks to the SQAMIA 2016 Organizing Committee from the Faculty of Informatics of Eötvös Loránd University, Budapest, and the Department of Mathematics and Informatics, Faculty of Sciences, University of Novi Sad, especially to its chair Tamás Kozsik for his hard work and dedication to make this workshop the best it can be.

The workshop is financially partially supported by the EU COST Action IC1202: Timing Analysis on Code-Level (TACLe).

And last, but not least, we thank all the participants of SQAMIA 2016 for their contributions that made all the work that went into SQAMIA 2016 worthwhile.

August 2016

Workshop Organization

General Chair

Zoltán Horváth (*Eötvös Loránd University, Hungary*)

Program Chair

Zoran Budimac (*University of Novi Sad, Serbia*)

Program Committee

Nuno Antunes (*University of Coimbra, Portugal*)
Tihana Galinac Grbac (*co-chair, University of Rijeka, Croatia*)
Marjan Heričko (*co-chair, University of Maribor, Slovenia*)
Zoltán Horváth (*co-chair, Eötvös Loránd University, Hungary*)
Mirjana Ivanović (*co-chair, University of Novi Sad, Serbia*)
Hannu Jaakkola (*co-chair, Tampere University of Technology, Finland*)
Harri Keto (*Tampere University of Technology, Finland*)
Vladimir Kurbalija (*University of Novi Sad, Serbia*)
Anastas Mishev (*University of Sts. Cyril and Methodius, FYR Macedonia*)
Zoltan Porkolab (*Eötvös Loránd University, Hungary*)
Valentino Vranić (*Slovak University of Technology in Bratislava, Slovakia*)

Additional Reviewers

Cristiana Areias (*Instituto Politécnico de Coimbra, ISEC, DEIS, Coimbra, Portugal*)
Tânia Basso (*School of Technology - University of Campinas (FT-UNICAMP), Portugal*)

Organizing Chair

Tamás Kozsik (*Eötvös Loránd University, Hungary*)

Organizing Committee

Szilvia Ducerf (*Eötvös Loránd University, Hungary*)
Gordana Rakić (*University of Novi Sad, Serbia*)
Judit Juhász (*Altagra Business Services, Gödöllő Hungary*)
Zoltán Porkoláb (*Eötvös Loránd University, Hungary*)

Organizing Institution

Eötvös Loránd University, Budapest, Hungary

Steering Committee

Zoran Budimac (*University of Novi Sad, Serbia*)
Tihana Galinac Grbac (*University of Rijeka, Croatia*)
Marjan Heričko (*University of Maribor, Slovenia*)
Zoltán Horváth (*Eötvös Loránd University, Hungary*)
Hannu Jaakkola (*Tampere University of Technology, Finland*)

Technical Editors

Doni Pracner (*University of Novi Sad, Serbia*)
Gordana Rakić (*University of Novi Sad, Serbia*)

Table of Contents

◦ Tool to Measure and Refactor Complex UML Models	1
<i>Tamás Ambrus, Domonkos Asztalos, Zsófia Borbély and Melinda Tóth</i>	
◦ Product Evaluation Through Contractor and In-House Metrics	9
<i>Lucija Brezočnik, Črtomir Majer</i>	
◦ Software Metrics for Agent Technologies and Possible Educational Usage	17
<i>Mirjana Ivanović, Marcin Paprzycki, Maria Ganzha, Costin Badica, Amelia Badica</i>	
◦ Why Information Systems Modelling Is Difficult	29
<i>Hannu Jaakkola, Jaak Henno, Tatjana Welzer Družovec, Bernhard Thalheim, Jukka Mäkelä</i>	
◦ Pharmaceutical Software Quality Assurance System Architecture	41
<i>Bojana Koteska, Ljupco Pejov, and Anastas Mishev</i>	
◦ Assessing the Impact of Untraceable Bugs on the Quality of Software Defect Prediction Datasets	47
<i>Goran Mauša, Tihana Galinac Grbac</i>	
◦ XML Schema Quality Index in the Multimedia Content Publishing Domain	57
<i>Maja Pušnik, Marjan Heričko, Boštjan Šumak, Gordana Rakić</i>	
◦ Combining Agile and Traditional Methodologies in Medical Information Systems Development Process	65
<i>Petar Rajkovic, Ivan Petkovic, Aleksandar Milenkovic, Dragan Jankovic</i>	
◦ How is Effort Estimated in Agile Software Development Projects?	73
<i>Tina Schweighofer, Andrej Kline, Luka Pavlič, Marjan Heričko</i>	
◦ First Results of WCET Estimation in SSQSA Framework	81
<i>Nataša Sukur, Nemanja Milošević, Saša Pešić, Jozef Kolek, Gordana Rakić, Zoran Budimac</i>	
◦ Towards the Code Clone Analysis in Heterogeneous Software Products	89
<i>Tijana Vislavski, Zoran Budimac, Gordana Rakić</i>	
◦ Monitoring an OOP Course Through Assignments in a Distributed Pair Programming System	97
<i>Stelios Xinogalos, Maya Satratzemi, Despina Tsompanoudi, Alexander Chatzigeorgiou</i>
